# CU 100/200 COLDMACHINES

Dometic ColdMachines survive the rigors of the harsh marine environment and provide exceptional performance in hot and humid conditions, erratic or low voltage, and continuous use. The easy-to-install cooling units, when coupled with a VD-series evaporator, provide up to 15 cu ft/424 l of custom refrigeration or freezing.

**SELF-SEAL FITTINGS**  
EASY ATTACHMENT

**STAINLESS-STEEL**  
WEATHER RESISTANT

**SHROUDED CONDENSER**  
OPTIMAL PERFORMANCE

115V/60Hz

Mobile living made easy.

 **DOMETIC**

# PROVIDES LARGE-CAPACITY DO-IT-YOURSELF COLD STORAGE

Model	CU-100 (AIR COOLED)	CU-200 (AIR & WATER COOLED)
Max. Refrigeration Volume <sup>1</sup>	15.0 cu ft/424 l	15.0 cu ft/424 l
Voltage DC	12/24	12/24
Application	General Boating	Tropical-Water Boating
Refrigerant Type	R134A	R134A
Net Weight (lbs/kg)	16/7.3	17/7.8
Gross Weight (lbs/kg)	19/8.7	20/9.1

<sup>1</sup>With large evaporating unit such as VD 152 or VD 153 (sold separately) and 3 in./76 mm polyurethane insulation.

**1. MAXIMUM PERFORMANCE**  
Oversized air condensers

**2. BUILT FOR THE ELEMENTS**  
Optimal performance in warmer waters

**3. COOLING PERFORMANCE**  
Compressor provides 25% more cooling performance
